तपशिल :

SN	Lab	Equipment	Number
1	Non Destructive test of concrete	Digital , N type, Portable , Compressive strength capacity 100N/mm2	1
		Analog , Portable , Compressive strength capacity 100N/mm2	1
2	Unconfined compression Test	Unconfined compression Test apparatus (Proving ring type) and Motor driven to give strains , along with all accessories including coning tools in pair (male and female) and Suitable for operation on 230V A.C.	1
3	Triaxial Test	Triaxial Test apparatus to perform Unconsolidated undrained (UU), consolidated drained(CD) and consolidated undrained (CU) compression tests can be automatically run, controlled and reported, motorized loading frame with triaxial cells with pore water and lateral pressure assembly.	1
4	Dynamic cone penetration test	Dynamic cone penetration test apparatus with all assembly	1
5	Test on Bitumen: Penetration test	Penetration test apparatus with digital timer and electrical arrangements, operating at 230 Volt, 50 Hz, Single Phase, AC Supply, dialgauge measurint at least 1/10th of mm, along with all required accessories	2
6	viscosity test of Bitumen	viscometer with heater and analog temperature controller and manual stirer along with all accessores.	2

SN	Lab	Equipment	Number
7	softening point	Ring and ball apparatus with accessories (Themometer , electrical stirer with sand and blades) Suitable for operation on 230V A.C.	2
8	Ductility	Ductility test apparatus with thermostatic water bath and circulating pump along with all accessories including thermometer and ductility mould, Suitable for operation on 230V A.C.,	1
9	Bitumen core cutter	Compact and portable core drilling machine complete assembly supplied on a rigid wheel mounted metal base with drill head and motor assembly and runs on petrol engine that can take sample from concrete, asphalt, and simillar hard construction materials provided with different coring bit.	1
10	Marshal Stability test	Marshal Stability test apparatus with motorized loading unit, compaction pedal with specimen mould holder, compaction rammers, along with all accessories that must include thermometer and universal water bath to accomodate at least three specimen and suitable for operation on 230V A.C.	1
11	CBR test	CBR test apparatus with option of both mechanical or electronic measurement along with all accessories and suitable for operation on 220v, 50 Hz singlephase AC supply.	1
12	Bitumen extraction test	Hand operated Centrifuge Bitumen extractor with capacity of 1500 g along with all accessories.	2
